EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Matkin on November 4th, 2003.

The application has been amended as follows:

In claim 1, line 14, "barium [and] strontium" has been changed to "barium --to-- strontium".

In claim 17, line 14, after "titanium", --relative to barium and strontium-- has been added.

In claim 18, line 3, "barium [and] strontium" has been changed to "barium --to-- strontium".

In claim 52, line 14, "barium [and] strontium" has been changed to "barium --to-- strontium".

In claim 60, line 14, after "titanium", --relative to barium and strontium-- has been added.

In claim 61, line 3, "barium [and] strontium" has been changed to "barium --to-- strontium".

The following is an examiner's statement of reasons for allowance: The prior art fails to teach, or make obvious, the limitation of changing the relative concentration of barium to strontium or titanium to barium and strontium by changing the rate of flow, during deposition, of a constant composition oxidizer stream while maintaining a substantially constant atomic ratio of barium to strontium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric B Fuller whose telephone number is (703) 308-6544. The examiner can normally be reached on Mondays through Thursdays.
